

TG20 Note Counter

Cost Effective Note Counting Solution

Product Features

Counts the total value of single denominations.

Counting Display 4 Digits LED

UV and Magnetic ink detection)

Continuous counting or batch counting method

Width, double, half and chain banknote identifying

Memory function – keep last operating state

The **TG20 Note Counter** precisely and rapidly counts single denomination notes while the TG20 VALUE note counter accurately counts the value of large quantities of single or mixed denomination notes of any currency within the size limits. You don't need to sort your notes before counting! An alarm stop with error message will occur on both models when any counterfeit notes are detected.

Tried and tested with British and Scottish Polymers. The TG20 can process both paper and polymer together.
